Multimodal Emotion Recognition with Adaptive Fusion and Reliability-Aware Attention using Lightweight Transformer Architectures Dr. U Moulalli¹, V M S Sainath Chakravadhanula² Professor¹, Department of Computer Engineering, Methodist College of Engineering and Technology, Abids, Hyderabad, Telangana, 500001, India. Student², Department of Computer Engineering, Methodist College of Engineering and Technology, Abids, Hyderabad, Telangana, 500001, India. Page | 2 Abstract Multimodal emotion recognition has emerged as a key research area within affective computing, driven by the need to interpret human emotions from heterogeneous sources such as text, speech, and facial expressions. Recent advances in deep learning, particularly transformer-based... (only first 800 chars shown)

Word Choice

Usage of Bad Phrases

Bad Phrase Score: 0.47 (lower is better)

The Bad Phrase Score is based on the quality and quantity of trite or inappropriate words, phrases, egregious misspellings, and cliches found in your paper. You did equal or better than **99%** of the people in your grade.
